Date: Wednesday, September 23, 2026

Current Session:  London Session Pre-Open Briefing (1 Hr Before Open)

Session News Focus: Heavily on European macroeconomic releases, ECB/BOE news, Forex short-term futures (EUR/USD, GBP/USD), and Gold (XAU/USD) supply/demand zones.

SECTION 0: DAILY MACRO & FINANCIAL NEWS DIGEST

1. Global Macro & Central Banks

- Optimism surrounds diplomatic efforts to end the conflict in Iran, with President Trump describing a meeting with Iranian envoys as "very productive," leading to a notable drop in crude oil prices.
- The European Central Bank (ECB) has launched "Pontes" on September 21, a new live system enabling banks like Deutsche Bank and Santander to settle token-based trades using central bank euros on blockchain.
- The ECB's policy rate remains at 2.25% as of July 23, 2026, with the Bundesbank President highlighting oil prices as an increasingly crucial factor in setting interest rates.
- The Bank of England (BoE) maintained its interest rates at 3.75% on September 17, although some committee members advocated for a hike. Additionally, the BoE has authorized ClearToken to operate a Digital Securities Depository.
- The Asian Development Bank (ADB) has revised India's 2026 growth forecast upwards to 7%, citing strong consumer demand, investment, and government expenditure, but cautioned about potential inflation risks from El Nino and high energy costs.
- The IMF chief, Georgieva, has urged wealthy nations to reduce debt amidst rising borrowing costs driven by global shocks, also noting AI-related investments as a potential financial stability concern.
- A significant summit between US President Trump and Chinese President Xi Jinping is anticipated on Thursday.

2. US & European Markets

- The Nasdaq 100 is approaching record highs, propelled by a sustained rally in semiconductor companies such as Micron Technology Inc and Nvidia Corp, which have seen a six-day consecutive climb.
- German business activity demonstrated solid growth in September, with the S&P Global Flash Composite PMI Index reaching 53.8, its highest level since October of the previous year.
- Meta Platforms' new AI assistant, "Muse," generated substantial market interest, and attention is now turning to Google's forthcoming "CC agent."
- Softbank's over \$10 billion debt offering garnered significant investor demand, reflecting strong confidence in the AI sector's growth narrative.
- Automaker Rivian is recalling nearly 99,000 vehicles to address a rearview camera display issue, which will be resolved through an over-the-air software update.

3. Indian Markets & Dalal Street

- India's business activity experienced a rebound in September, reaching a three-month peak, with the HSBC Composite PMI Flash registering 56.5.
- Block deals totaling over ₹2,700 crore were executed across seven stocks on Wednesday, with Meesho accounting for the largest transaction valued at ₹900 crore.
- Aditya Infotech has launched a ₹1,500 crore Qualified Institutional Placement (QIP).
- Airtel Money is reportedly planning an Initial Public Offering (IPO) on the London Stock Exchange, which could mark the first overseas listing for an Indian-grown company in nearly a decade.

4. Commodities & Crypto Wire

- Brent crude oil prices declined to approximately US\$99 per barrel, influenced by optimism surrounding US-Iran diplomatic talks and reports of increased supply from Saudi Arabia.
- Gold prices softened, and the US dollar gained strength following news of the US-Iran discussions. The precious metal's performance is described as "lacklustre" amid a "higher-for-longer" interest rate outlook.
- Bitcoin (BTC/USD) surged past \$87,000, reaching levels not seen since January, while Ethereum (ETH/USD) traded at \$2,750, recording a 10.8% gain for the week, supported by robust ETF inflows.
- The ECB's "Pontes" initiative, facilitating blockchain-based tokenized trades, is viewed as a significant positive catalyst for the broader cryptocurrency market.

WELSPUNLIV	Long	220.00	210.00	235.00	245.00	Nifty leader; Recent block deal with increased trading volume and shares trading higher after the deal. Strategy: Seek 50-SMA support bounce if it retraces, or 20/50 EMA golden cross confirmation for continued momentum.
MOLBIO	Long	1300.00	1250.00	1350.00	1400.00	Nifty leader; Shares trading in the green following a block deal, indicating renewed institutional interest. Strategy: Monitor for 20/50 EMA golden cross on daily chart or breakout from recent consolidation.
ADITAINFOCH	Long	3500.00	3400.00	3650.00	3800.00	Nifty leader; QIP launch indicates growth plans and capital infusion, potentially attracting investor interest. Strategy: Identify bullish continuation patterns following the QIP announcement.

US EQUITIES

Ticker	Direction	Entry Price/Level (Hypothetical)	Stop Loss (Hypothetical)	Target 1 (Hypothetical)	Target 2 (Hypothetical)	Strategy & Selection Reason
NVDA	Long	950.00	920.00	980.00	1000.00	Large-Cap Growth Leader; Driving Nasdaq 100 higher, sixth straight day of gains for chipmakers. Strategy: Enter on 21-day EMA pullback confirming support in an uptrend, or a high relative volume breakout above recent highs.
AAPL	Long	225.00	220.00	230.00	235.00	Mega-Cap Growth Leader; Part of the tech rally bolstering the Nasdaq. Strategy: Monitor for 21-day EMA pullback with positive price action confirmation.
MUSE (Hypothetical)	Long	55.00	52.50	58.00	60.00	Mid-Cap Tech Breakout (Illustrative); Representing strong AI sector momentum with significant investor buzz around Meta's AI assistant "Muse". Strategy: Stage-2 VCP (Volatility Contraction Pattern) breakout on higher relative volume.

CRYPTO FUTURES (BI-DIRECTIONAL)

Ticker	Direction	Entry Price/Level (Hypothetical)	Stop Loss (Hypothetical)	Target 1 (Hypothetical)	Target 2 (Hypothetical)	Strategy & Selection Reason
BTC/USD	Long	87,000	85,500	89,000	90,500	Strong bullish momentum, crossed \$87,000 for the first time since January, significant ETF inflows. Strategy: 4H 21-EMA trend following on bullish continuation, or high-volume volatility breakout above consolidation.
ETH/USD	Long	2,750	2,680	2,850	2,950	Bullish momentum, up 10.8% in a week, strong ETF inflows, ECB's blockchain initiative positive for crypto. Strategy: 4H 21-EMA trend following on bullish continuation, or high-volume volatility breakout.

COMMODITIES (BI-DIRECTIONAL)

Ticker	Direction	Entry Price/Level (Hypothetical)	Stop Loss (Hypothetical)	Target 1 (Hypothetical)	Target 2 (Hypothetical)	Strategy & Selection Reason
XAU/USD (Gold)	Short	1930.00	1945.00	1915.00	1900.00	Gold fell due to US-Iran talks optimism and "higher-for-longer" rate outlook. Strategy: Short on rejection from a key Fibonacci retracement level or pivot point resistance following bearish news.
CL=F (WTI Crude Oil)	Short	99.00	100.50	97.50	96.00	Brent crude dropped to ~\$99, oil down for sixth consecutive day on US-Iran talks and Saudi supply. Strategy: Short on break below key pivot support or Fibonacci extension level, riding bearish momentum.

Ticker	Direction	Entry Price/Level (Hypothetical)	Stop Loss (Hypothetical)	Target 1 (Hypothetical)	Target 2 (Hypothetical)	Strategy & Selection Reason
EUR/USD (Short-Term)	Short	1.0750	1.0800	1.0700	1.0650	USD firmed today; ECB policy rate at 2.25% with oil prices as key inflation gauge, which could lead to cautious ECB stance. German PMI positive but broader Eurozone outlook still under watch. Strategy: Short on rejection of key resistance (e.g., 20-period EMA on lower timeframes) with divergence.
GBP/USD (Short-Term)	Short	1.2200	1.2250	1.2150	1.2100	GBP/USD fell on September 17 after BoE held rates, indicating potential continued weakness. Strategy: Short on continuation of bearish trend, utilizing pivot levels for entry and exit, especially if USD strength persists.
USD/JPY (Macro Carry Swing)	Long	148.50	147.80	149.50	150.50	Dollar firmed. US yields elevated. Divergence between Fed hawkishness (implied by high yields) and potential BoJ dovishness supports carry trade. Strategy: Long on dip to 200-day SMA or daily bullish engulfing candle on strong support, maintaining for swing trade.
AUD/USD (Macro Carry Swing)	Short	0.6450	0.6500	0.6400	0.6350	AUD/CAD reached parity, indicating potential AUD strength, but broader USD firmness and commodity price weakness (oil/gold) could pressure AUD/USD. Australia's flash PMI slowed in September. Strategy: Short on rally to resistance and
