Daily Multi-Asset Trading Blueprint & Level Execution Manual

Date: August 27, 2026

Session: New York Session Pre-Open Briefing (1 Hr Before Open)

Role: Lead Quantitative Strategist & Institutional Portfolio Manager

SECTION 0: DAILY MACRO & FINANCIAL NEWS DIGEST

1. Global Macro & Central Banks

- The Jackson Hole Economic Policy Symposium commences today, August 27, with Fed Chair Kevin Warsh's highly anticipated speech scheduled for tomorrow, August 28. The symposium's theme, "Financial Innovation: Implications for Payments and Policy," suggests a focus beyond traditional interest rate discussions. [cite: 31 in news digest]
- US Personal Consumption Expenditures (PCE) data for July showed headline inflation at 3.7% and core PCE at 3.3% year-on-year. While headline PCE was slightly above forecasts, core PCE matched consensus, leading to a measured market reaction. [cite: 19 in news digest]
- Money markets are now fully pricing in a Federal Reserve rate hike by December, with 2-year US Treasury yields rising to 4.22%. [cite: 11 in news digest] The US 10-year yield is holding near 4.64%. [cite: 15 in news digest]
- The Bank of Korea implemented a 25-basis-point rate hike, and European Central Bank (ECB) accounts indicate upside risks to the inflation outlook. [cite: 11 in news digest] A Bank of Japan (BOJ) policymaker has also kept the door open for a September rate hike. [cite: 6 in news digest]

2. US & European Markets

- US equity futures are rallying pre-market, primarily driven by Nvidia's (NVDA) stellar Q2 earnings report. The chip giant exceeded expectations with record revenue of \$96.2 billion and projected 70% revenue growth for fiscal 2028, boosting Nasdaq 100 futures by 0.9% and S&P 500 futures by 0.4%. [cite: 11 in news digest, 12 in news digest, 21 in news digest]
- Other technology companies also saw significant gains in pre-market trading, with Salesforce jumping about 10%, Okta surging over 17%, and CrowdStrike shares rising as much as 10% following strong earnings reports and robust demand linked to AI. [cite: 12 in news digest, 21 in news digest]
- European markets are generally mixed to lower. The pan-European STOXX 600 index slid 0.7%, led by declines in French stocks due to disappointing corporate earnings (e.g., Pernod Ricard down 7.4%). [cite: 5 in news digest, 13 in news digest] Germany's DAX, however, managed a modest 0.3% gain, supported by a rally in the defense sector. [cite: 13 in news digest]
- US consumer confidence declined to a seven-month low. [cite: 2 in news digest]

3. Indian Markets & Dalal Street

- Indian equity benchmarks are anticipated to open lower today, with GIFT Nifty futures falling 66-71 points amid mixed global cues. [cite: 7 in news digest, 20 in news digest]
- Institutional flows show Foreign Institutional Investors (FIIs) were net sellers of ₹-298.30 crore in the cash segment on August 27, 2026, while Domestic Institutional Investors (DIIs) were strong net buyers of ₹4,977.20 crore. [cite: 28 in news digest]
- The Nifty 50 is consolidating with high intraday volatility, and Bank Nifty remains range-bound between 57000 and 58000. [cite: 20 in news digest, 27 in news digest]
- Bharat Electronics (BEL) advanced after securing new orders worth ₹730 crore. [cite: 27 in news digest] Conversely, ICICI Prudential AMC shares fell over 4% following news that Prudential Corporation Holdings sold a 2% stake in the company. [cite: 16 in news digest, 27 in news digest]

4. Commodities & Crypto Wire

- Gold (XAU/USD) has eased from a three-month high of approximately \$4,697 an ounce reached earlier this week, but it remains higher for the month, trading around \$4,576-\$4,620. [cite: 2 in news digest, 3 in news digest, 4 in news digest, 8 in news digest, 9 in news digest] Its price action is influenced by the upcoming Jackson Hole Symposium and the recent US PCE inflation data. [cite: 4 in news digest, 19 in news digest] Gold is currently supported around \$4,600 and trading above its EMA50, suggesting a short-term bullish trend. [cite: 14 in previous step]
- WTI Crude Oil is trading around the \$81.00 handle, showing a 0.3% gain to \$82.50. [cite: 6 in news digest, 15 in previous step] Brent crude stabilized near \$87.40/bbl but is on track for a fourth consecutive day of falls. [cite: 11 in news digest, 34 in news digest] Easing Middle East tensions, particularly diplomatic efforts concerning the Strait of Hormuz, are contributing to downward pressure on oil prices. [cite: 13 in news digest, 15 in previous step, 23 in previous step, 34 in news digest, 44 in news digest]
- In the crypto market, Bitcoin (BTC) is up 1.3% to \$79,479, with Solana (SOL) and VeChain (VET) showing significant gains of 6.45% and 18.2% respectively. [cite: 6 in news digest, 13 in news digest]
- The SEC has proposed "Regulation Crypto Assets" (Reg CA) on August 18, 2026, a new tailored offering framework aimed at bringing regulatory clarity and fostering innovation in the crypto space. [cite: 10 in news digest, 42 in news digest, 43 in news digest]

STRATEGY-BASED DAILY TICKER SELECTION & SECTOR CONSTRAINTS

INDIAN EQUITIES (STRICTLY LONG-ONLY)

Ticker	Current Price (INR)	50-SMA (INR)	20-EMA (INR)	Strategy & Selection Reason
BEL	411.00 [cite: 40 in previous step]	408.80 (EMA) [cite: 40 in previous step]	407.10 (EMA) [cite: 40 in previous step]	50-SMA Support Bounce / 20/50 EMA Golden Cross: BEL advanced on new orders, indicating strong fundamentals. Current price is above both 20-EMA and 50-EMA, confirming bullish momentum and a potential golden cross or a strong bounce off support levels. [cite: 27 in news digest, 39 in previous step, 40 in previous step]

US EQUITIES

Large-Cap (BI-DIRECTIONAL)

Ticker	Current Price (USD)	21-EMA (USD)	50-SMA (USD)	Strategy & Selection Reason
NVDA	~970.00 (Pre-market est.)	N/A (monitor live)	N/A (monitor live)	Earnings Breakout & Continuation: Stock jumped ~6% pre-market on blowout earnings and strong AI demand forecast. Initiate long on confirmed breakout above pre-market highs or small pullbacks to establish new support. [cite: 12 in news digest, 21 in news digest]
MSFT	501.45 [cite: 13 in previous step]	488.21 (20-day SMA) [cite: 5 in previous step]	425.74 [cite: 5 in previous step]	21-day EMA Pullback / 50-day SMA Rejection: Strong uptrend, price well above key moving averages. Look for long opportunities on minor pullbacks towards the 21-day EMA (using 20-day SMA as proxy) or 50-day SMA for continued momentum. [cite: 5 in previous step, 13 in previous step, 45 in previous step]

Mid-Cap & Small-Cap (STRICTLY LONG-ONLY)

Ticker	Current Price (USD)	Relative Volume (RVOL)	Strategy & Selection Reason
ANET	206.00 [cite: 27 in previous step]	Monitor at open	Stage-2 VCP / High RVOL Breakout: ANET showed significant gains previously on AI infrastructure interest. Seek long entry on strong volume confirmation (RVOL > 2.0) breaking out of a tight consolidation (VCP) post-open. [cite: 15 in news digest, 22 in previous step, 27 in previous step, 38 in previous step, 44 in previous step]
LITE	Monitor at open	Monitor at open	Stage-2 VCP / High RVOL Breakout: Climbed 6.04% due to AI-related optics demand. Similar to ANET, look for a clear breakout with high relative volume confirming strong institutional interest and upward momentum. [cite: 15 in news digest]

CRYPTO FUTURES (BI-DIRECTIONAL)

Ticker	Current Price (USD)	4H 21-EMA (USD)	Strategy & Selection Reason
BTC/USD	80,234.10 [cite: 18 in previous step]	~79,100 (H1 21-SMA) [cite: 43 in previous step]	4H 21-EMA Trend Following / Volatility Breakout: Bitcoin is in a strong uptrend, breaking above the 21-SMA (proxy for 21-EMA) and a key Fibonacci level. Maintain long bias, targeting further upside with potential pullbacks to 4H 21-EMA as buying opportunities. [cite: 18 in previous step, 43 in previous step]
SOL/USD	Monitor live	Monitor live	High-Volume Volatility Breakout: Solana up 6.45% today. Look for continuation of high-volume breakouts, initiating long positions on confirmed strong candle closes above resistance. Short opportunities on significant rejections from resistance after extended moves. [cite: 13 in news digest]
VET/USD	Monitor live	Monitor live	High-Volume Volatility Breakout: VeChain up 18.2% today. Similar to SOL, target long positions on high-volume breakouts demonstrating clear upward momentum. Consider short entries only on clear signs of exhaustion or reversal from key resistance levels. [cite: 13 in news digest]

COMMODITIES (BI-DIRECTIONAL)

Ticker	Current Price	Key Levels (S/R/Pivot)	Strategy & Selection Reason
XAU/USD	~4600-4620	Support: 4600.00, 4515.00 [cite: 9 in news digest]; Resistance: 4655.00-4700.00 [cite: 9 in news digest]	Pivot & Fibonacci Extension Levels: Gold is finding support around \$4600 and trading above its EMA50, suggesting bullish intent. Look for long entries on bounces from \$4600 support or on breakouts above \$4655, targeting Fibonacci extensions. Short opportunities on rejection from strong resistance (e.g., \$4697 former high). [cite: 2 in news digest, 9 in news digest, 14 in previous step, 19 in news digest]
WTI OIL	~81.40 [cite: 15 in previous step]	Support (Fib): 81.40 (50%), 79.73 (61.8%); Resistance (Triangle top): 88.50 [cite: 15 in previous step]	Pivot & Fibonacci Extension Levels: WTI is consolidating in a symmetrical triangle around \$81.00. Look for long opportunities on bounces from Fibonacci support levels (e.g., \$81.40, \$79.73) or confirmed breakouts above the triangle's upper trendline. Short entries if the price rejects from the triangle's resistance or breaks below Fibonacci support with conviction. [cite: 15 in previous step]

FOREX FUTURES (BI-DIRECTIONAL)

Short-Term

Ticker	Current Rate	Key Levels (S/R)	Strategy & Selection Reason
EUR/USD	1.1638 [cite: 6 in news digest]	Support: 1.1620, 1.1600 [cite: 36 in previous step]; Resistance: 1.1710, 1.1750 [cite: 36 in previous step]	Technical Reversal/Consolidation: EUR/USD pulled back from recent highs. Mixed technical signals (RSI neutral, some MAs buy/sell). Wait for clear directional bias. Consider short-term long trades if it holds 1.1620 support or short trades on rejection from 1.1710 resistance, with tight stops. [cite: 20 in previous step, 31 in previous step, 36 in previous step]
GBP/USD	1.3591 [cite: 12 in previous step]	Support: 1.3550, 1.3500 [cite: 28 in previous step]; Resistance: 1.3650-1.3675 [cite: 28 in previous step]	Trend Breakdown & Retest: GBP/USD slipped after breaking below a key short-term bullish trend line and EMA50, indicating negative pressure. Look for short opportunities on retests of broken support now turned resistance (e.g., 1.3600-1.3620) or continuation below 1.3550. [cite: 12 in previous step, 28 in previous step, 41 in previous step]

Long-Term Carry Swings

Ticker	Current Rate	Key Drivers	Strategy & Selection Reason
USD/JPY	159.48 [cite: 6 in news digest]	US Fed policy, BOJ stance, inflation data.	Divergent Monetary Policy / Carry Trade: USD/JPY continues to be driven by interest rate differentials. A BOJ policymaker leaving the door open for a September rate hike could introduce volatility. Maintain a long bias on USD strength against JPY on any significant pullbacks, but closely monitor BOJ communications for potential shifts. [cite: 6 in news digest, 13 in news digest, 44 in news digest]
AUD/USD	0.7180 [cite: 6 in news digest]	RBA hawkish bias, domestic inflation, USD strength.	Hawkish RBA & Uptrend Continuation: AUD/USD is in a strong uptrend, breaking multi-month highs, underpinned by rising RBA rate hike expectations and sticky domestic inflation. Consider long entries on minor pullbacks or confirmed breakouts above resistance, despite current overbought RSI conditions. [cite: 9 in previous step, 11 in previous step, 17 in previous step, 24 in previous step, 37 in previous step]

INDIAN OPTIONS (BI-DIRECTIONAL)

Index	Strategy & Execution
Nifty 50 / BankNifty	15-Minute Opening Range Breakout (ORB): • Execution: Mark the high and low of the first 15-minute candle (9:15 AM - 9:30 AM IST). [cite: 6 in previous step, 42 in previous step] • Long Entry (Call Options): Enter if a subsequent 5-minute candle closes *above* the opening range high with strong volume. Stop-loss at the opening range low. [cite: 6 in previous step, 42 in previous step] • Short Entry (Put Options): Enter if a subsequent 5-minute candle closes *below* the opening range low with strong volume. Stop-loss at the opening range high. [cite: 6 in previous step, 42 in previous step] • Note: Prioritize trades during premium market conditions and news-free sessions. Volume confirmation is crucial to avoid false breakouts. [cite: 42 in previous step]
