Session Highlight: New York Session Pre-Open Briefing (1 Hr Before Open)

Session News Focus: Wall Street pre-market movers, US Federal Reserve news, mega-cap US stocks (NVDA, MSFT, TSLA), and WTI Crude Oil catalysts.

SECTION 0: DAILY MACRO & FINANCIAL NEWS DIGEST

1. Global Macro & Central Banks

- The Reserve Bank of India (RBI) has held its repo rate steady at 5.25% for the third consecutive time this financial year, maintaining a neutral stance. The central bank revised India's GDP growth projection to 6.7% for the current fiscal year and forecasted headline inflation at 5%, a slight decrease from the earlier estimate of 5.1%.
- Kansas City Fed President Jeff Schmid stated on Tuesday that the Federal Reserve's inflation challenge is not solely energy-related, suggesting that tighter policy will be necessary to achieve the Fed's 2% inflation target.
- The People's Bank of China (PBOC) set the USD/CNY reference rate at a new 41-month high for the yuan.
- New Zealand's unemployment rate reached an 11-year high, causing the NZD to fall.

2. US & European Markets

- US stocks surged following Treasury Secretary Scott Bessent's statement that a deal with Iran to reopen the Strait of Hormuz could be reached "today or tomorrow," which also led to a sharp decline in oil prices.
- The S&P 500 booked its 25th record close of 2026 after a 42-day break, with investors piling into bullish options bets.
- Mega-cap US stocks show mixed movements in pre-market:
 - Microsoft (MSFT) traded higher in pre-market at \$476.14, up 2.46% from its previous close of \$464.72. This is further supported by an overall positive trend for MSFT with a current price of \$490.44.
 - Tesla (TSLA) showed an increase of 0.70% in pre-market, trading at \$324.34, up from \$322.08. The current price for TSLA is \$324.86, showing a positive movement since the market opened.
 - NVIDIA (NVDA) traded lower in pre-market at \$197.69, down 1.52% from its previous close of \$200.75. Despite this, NVDA has seen a strong recovery recently, with its stock trading 2.1% higher in after-hours on August 3, 2026. NVIDIA is also gaining as SpaceX picks Nvidia GPUs, CPUs and rack systems for AI satellites.
- The semiconductor index experienced a bear market despite "unprecedented" profit increases, as companies like AMD still topped expectations in Q2 earnings.

3. Indian Markets & Dalal Street

- Indian benchmark equity indices opened higher on Wednesday, August 5, with the Sensex up 400 points and the Nifty gaining 15 points, following the RBI's decision to keep the repo rate unchanged and positive global cues.
- Nifty MidCap and SmallCap indices were trading 0.29% and 0.89% higher, respectively.
- Sector-wise, Nifty Realty rose nearly 2% and outperformed, along with Nifty Auto and Nifty PSU Bank. Nifty FMCG and Nifty Pharma underperformed.
- Indian markets are closely tracking global cues, corporate earnings, and foreign fund flows.

4. Commodities & Crypto Wire

- WTI Crude Oil fell sharply due to hopes of a US-Iran deal to reopen the Strait of Hormuz. However, a ship moving through the Strait of Hormuz was struck as talks continued, creating uncertainty.
- Seven OPEC+ countries (Saudi Arabia, Russia, Iraq, Kuwait, Kazakhstan, Algeria, and Oman) virtually met on August 2, 2026, and decided to implement a production adjustment of 188 thousand barrels per day from the additional voluntary adjustments announced in April 2023, to be implemented in September 2026. They will continue monthly meetings to review market conditions.
- Gold surged back above \$4,130 as diminishing energy price risk trimmed inflation and Fed rate hike expectations, amidst Iran deal hopes.
- No major crypto regulatory or adoption headlines found in the search results for August 5, 2026.

STRATEGY-BASED DAILY TICKER SELECTION & SECTOR CONSTRAINTS

INDIAN EQUITIES (STRICTLY LONG-ONLY)

Ticker	Action	Strategy & Selection Reason
Tata Motors (TATAMOTORS)	Long	Nifty Auto has hit a new peak post RBI policy. Tata Motors showing a 50-SMA support bounce on daily chart, indicating renewed buying interest in the auto sector.
State Bank of India (SBIN)	Long	Nifty PSU Bank sector outperformed today. SBIN exhibiting a 20/50 EMA golden cross on the daily chart, confirming bullish momentum and potential for further upside.

US EQUITIES

Large-Cap (BI-DIRECTIONAL)

Ticker	Action	Strategy & Selection Reason
Microsoft (MSFT)	Long	MSFT has seen significant pre-market gains and positive news flow. A 21-day EMA pullback entry is sought on any minor dips, targeting continuation of the upward momentum.
NVIDIA (NVDA)	Short	NVDA was down in pre-market trading, indicating potential weakness. A 50-day SMA rejection strategy for a short entry if it fails to reclaim and hold above this key moving average after a pre-market dip.
Tesla (TSLA)	Long	TSLA showed positive pre-market movement and has an overall rising trend. Looking for a 21-day EMA pullback entry as momentum builds towards the open.

Mid-Cap & Small-Cap (STRICTLY LONG-ONLY)

Ticker	Action	Strategy & Selection Reason
Palantir Technologies (PLTR)	Long	Potential Stage-2 VCP (Volatility Contraction Pattern) setup on daily chart, indicating a strong base formation and readiness for an upward move.
Coinbase Global (COIN)	Long	Exhibiting High Relative Volume (RVOL > 2.0) with a clear breakout above recent resistance on the daily chart, suggesting strong institutional accumulation.

CRYPTO FUTURES (BI-DIRECTIONAL)

Ticker	Action	Strategy & Selection Reason
Bitcoin (BTC/USD)	Long	4H 21-EMA trend following strategy. BTC showing a strong uptrend above the 21-EMA on the 4-hour chart, with consistent higher lows.
Ethereum (ETH/USD)	Short	High-volume volatility breakout. ETH breaking down below a key support level on the 4-hour chart with significant bearish volume, indicating further downside.

COMMODITIES (BI-DIRECTIONAL)

Ticker	Action	Strategy & Selection Reason
Gold (XAU/USD)	Long	Gold surged above \$4,130 on Iran deal hopes, easing inflation fears. Targeting Pivot point breakout above current levels, with Fibonacci extension levels as upside targets.
WTI Crude Oil (CL=F)	Short	WTI Crude Oil fell sharply on hopes of a US-Iran deal. Initiating short position on a break below daily pivot, with Fibonacci extension levels indicating potential downside targets.

FOREX FUTURES (BI-DIRECTIONAL)

Short-Term

Ticker	Action	Strategy & Selection Reason
EUR/USD	Long	EUR/USD holds ground near 1.1550 amid Hormuz reopening optimism, keeping the US Dollar on the back foot. Technical analysis suggests extended gains if trading above the EMA50, which acts as dynamic support.
GBP/USD	Long	GBP/USD holds above the 20-day EMA at 1.3389, retaining a mildly bullish near-term bias. The pair has reclaimed short-term trend support, with the Relative Strength Index (RSI) leaning constructive.

Macro Carry Swings

Ticker	Action	Strategy & Selection Reason
USD/JPY	Short	USD/JPY's fall extends lower today. Technicals show strongly bearish moving averages on the 1D timeframe, with short-term momentum turning up but longer-term trend pointing lower, watch for a potential bounce or reversal.
AUD/USD	Long	AUD/USD shows strong development within a rising trend channel in the medium long term, with the RSI indicating a "Buy" signal. The pair is holding above the 200-day SMA, indicating a constructive medium-term structure.

INDIAN OPTIONS (BI-DIRECTIONAL)

Ticker	Action	Strategy & Selection Reason
Nifty 50 Futures	Long Call / Short Put	15-Minute Opening Range Breakout strategy. Nifty 50 Futures expected to open higher. A decisive break above the 15-minute opening range high would indicate strong bullish momentum for a Long Call position; a break below the low could signal a short put opportunity if momentum reverses.
BankNifty Futures	Long Call / Short Put	15-Minute Opening Range Breakout strategy. BankNifty Futures showing volatility post RBI policy. A break above its 15-minute opening range high for a Long Call, or a break below for a Short Put, depending on the initial market direction.
